

Vellum is a self-publishing MacOS app.

To export from Vellum:

Go to the File menu

Select Export to RTF

Save this as a .docx

To import to Vellum:

Vellum can import a .docx document

Go to the File menu

Open

Choose any file with a .docx extension

Or drag and drop the file onto the Vellum flower icon in your dock

A work flow might be as follows:

Scrivener > Word > to proofreader for proofreading using Track Changes > final
Word document > Vellum > publish
